Use of Telemedicine While Providing Medication Assisted Treatment (MAT)

Under the Ryan Haight Act of 2008, where controlled substances are prescribed by means of the Internet, the general requirement is that the prescribing Practitioner must have conducted at least one in-person medical evaluation of the patient. [U.S.C. § 829\(e\)](#). However, the Act provides an exception to this requirement. 21 USC § 829

(e)(3)(A). Specifically, a DEA-registered Practitioner acting within the United States is **exempt** from the requirement of an in-person medical evaluation as a prerequisite to prescribing or otherwise dispensing controlled substances by means of the Internet **if** the Practitioner is engaged in the practice of telemedicine and is acting in accordance with the requirements of [21 U.S.C. § 802\(54\)](#).

-who is acting in the usual course of professional practice;

-who is acting in accordance with applicable State law; and

-is registered under 21 U.S.C. § 823 (f) with the DEA in the State in which the patient is located.

OR

B. while the patient is being treated by, and in the physical presence of, a DEA-registered practitioner

- who is acting in the usual course of professional practice;
- who is acting in accordance with applicable State law; and
- is registered under 21 U.S.C. § 823 (f) with the DEA in the State in which the patient is located.

Please be advised that the remote Practitioner engaged in the practice of telemedicine must be registered with the DEA in the state where they are physically located **and** in every state where their patient(s) is (are) physically located.
