Security Clearance Current DOE Q (Top Secret)
Education: Ed.S. University of Central Missouri, Warrensburg, MO
MS University of Central Missouri, Warrensburg, MO
BS University of Maryland, College Park, MD
USAF War College, Maxwell AFB, AL
MPA University of New Mexico, Albuquerque, NM (less thesis)
Graduate student University of Central Missouri, Spring/Fall 2020
Doctorate student, Murray State University, Current

Brief Chronological Work History:
Recently one of eight four-year term-appointed members of the **National Industrial Security Program Policy Advisory Committee (NISPPAC),** responsible for recommending changes in national industrial security policy through modifications to Executive Order 12829, its implementing directives, and the **National Industrial Security Program Operating Manual (NISPOM). Term ended Nov 2018**

Los Alamos National Laboratory Foundation, member Board of Directors

Strones Enterprises Inc., Disabled Veteran Owned Small Business, Security Consulting: contracts with companies interested in security operations, training, vulnerability assessments, protection strategies, and threat and performance assessment. The primary focus is DOE and DOD. Projects include: Principal investigator for the Y-12 break-in on 28 July 2012, at DOE's Highly Enriched Uranium Materials Facility (HEUMF); Efficiency Study and Cost Reduction Strategy Study, and a Management Review of the SRS Security Division both for the DOE Savannah River Manager; A Special Management Investigation for Westinghouse Corporation at the Columbia, SC facility; Vulnerability Assessment following the November attacks in Mumbai, India; Terrorism Training and Vulnerability Study, Saudi Arabia military; A NNSA directed Review of K Reactor at SRS, review of cost and manning and annual budget factors; Proposal for security assessment in Saudi Arabia for the 2010 Commonwealth Games; and a project at LANL concerning the integration of Simajin Vulnerability Assessment software in an interactive tabletop device with validation of results using LANL's Engagement Skills Trainer (EST); Weapons Skills Trainer (WST) and ITESS. Involvement with the DOE Enterprise VA Committee to improve vulnerability assessment techniques. In November 2014, nominated for a four-year term and selected as one of eight industry representatives to the National Industrial Security Program Policy Advisory Committee (NISPPAC) described above.

Previously
Pinkerton Government Services, **Senior Vice President & Director of Operations**, **Homeland Security**, Directed PGS classified government activities in the USA. Projects included security protection contracts at all Tennessee Valley Authority nuclear plants, fossil fuel generation facilities, and the DOE-related special production activities of tritium NNSA fuel. In addition, facility security protection activities at all DOE Strategic Petroleum (SPR) sites in Texas, Louisiana, and the New Orleans HQ. I was on-site as

contractor security director for six weeks during hurricane Katrina and Rita. Received the DOE Secretary Gold Award for Performance.

Johnson Controls (JCI), **General Manager, JCI Major Systems**, directed JCI national activities providing CBRN detection systems (the Guardian Project) protecting the critical infrastructure at 200 most critical DOD bases. Activities involved base surveys, initial and final design, integration with command systems, fielding/construction, and sustainment/maintenance.

Johnson Controls, **National Program Manager**, Federal Aviation Agency - **Facility Security Risk Management Program (FSRM),** directed JCI national activities involving vulnerability assessments and the installation of advanced technical security systems at over 500 FAA HQ and field facilities from Guam, to Maine, to Alaska and Puerto Rica following the 911 incident in New York. Activities involved comprehensive facility surveys, design, installation, sustainment/maintenance, and supervision of over 1,000 technicians. Presidentially directed emergency security upgrades of 150 critical FAA control towers completed in six weeks.

Day & Zimmermann, **Senior Vice President & General Manager**, Protection Technology Los Alamos, directed all protective force activities at Los Alamos National Laboratory. This active management of the protective force, electronic technicians, training, security planning, VA, performance testing, and staff functions for a force of 600 with an annual budget of 60M.

Department of Energy:
Headquarters: **DOE representative to the US Security Policy Board**.

DOE representative to the Joint Security Commission. Central Intelligence Agency.

Senior Program Manager for the Director of Security at the Office of Security & Safeguards.

Chief, Production & Research Inspection Branch, Office of Security Evaluations (OSE/I&E). Responsible for inspecting and testing security and MC&A functions at all US Nuclear production and transportation activities.

Albuquerque Operations Office: **Chief, Operations Support Branch, Transportation Safeguards Division**; Directed Training and Operational Vulnerability Assessment for all transportation of US Government nuclear weapons/special nuclear material (SNM). Formed and directed all training operations at the TSD Training Academy in both locations and three Federal Officer nationwide locations.

Director National inter-agency Weapons of Mass Destruction (WMD) exercises: **Compass Rose**, the most significant joint agency nuclear theft exercise held in the USA, every US government agency participated, California governor/EST/CHP/San Diego

Sherriff, White House SIT, DOD/Delta/USAF TAC, FBI San Diego/HRT, over 4K participants
Humble Servant, Arkansas with FBI, DOE NEST, DOE HQ, Arkansas governor
Golden Empire, New York with FBI, DOE HQ, New York State Police, and Canada
Desert Wheels, Nevada Test Site and responding LLEA, and DOE agencies
Operation Razorback, Arkansas State Police, FBI, and DOE agencies
Operation NuColumbia, NNSA, FBI, and DOE agencies, delivery of RTG
Ground Launched Cruise Missile Transport Proof of Concept Test, USAF
OST Rail SSR Protection test, Charlestown responders, and the US Navy and USMC
Kings Bay Nuclear Security Test, US Navy and Seal Teams, nuclear submarines
Los Angeles Olympics Athlete Transportation, LA/Santa Barbara Sherriff & IPG
Lake Placid Olympic Tactical Training, FBI/LLEA forces

The United States Air Force: Colonel USAF
IMA to the Director of Security Operations, HQ USAF Pentagon.
IMA to the Director Plans & Programs, AF Office of Security Police; Kirtland AFB, NM
Senior Security Officer, Inspections Directorate, Defense Nuclear Agency (now Defense Threat Reduction Agency); Kirtland AFB, NM
Commander, 4200 Security Police Squadron; Security; Kirtland AFB, NM
Director of Security, Manzano Base (DNA assignment); Manzano Base, NM
Security Commander Operations Officer, Bien Hoa AB, Vietnam
Security Operations Officer, 351 SMW, Whiteman AFB, MO.

Activities 1967-68
Responsible for planning and training defensive forces at Bien Hoa, Vietnam. Did vulnerability assessment, developed training to VA results, and tested the effectiveness of defense plans. Commanded forces during the tour, including Tet battle being attacked by 2,000; KIA 758 enemy. Coordinated defense plans with adjoining US, Vietnamese, and USAF HQ in Saigon. I returned in 2017 to find the battle mass grave & to receive Vietnam's senior military briefing on Bien Hoa battle preparation, execution, and details. Battle validated by the current Vietnamese government as the largest attack on any US airbase during the Vietnam war; therefore, it is the largest attack on any US airbase in the history of the United States Air Force.
