

# Census of Community Visual Artists

MidCoast is happy to announce receipt of Illinois Arts Council funding that gives the opportunity to undertake a long-needed project for our community – building a better picture of our community's talents.

Our task is to determine the number of self-declared visual artists who are active in the area we serve (the QCA and a 90-mile radius around it) by September 15, 2019. This information is crucial for grant applications, as many grants are awarded based on where artists reside.

## Three ways to submit by September 15, 2019
