

Ethan's Purpose is extremely proud to announce that after almost a year of meeting with district leaders, vetting Social Emotional Learning programs, and raising money to support this initiative, we are committing over \$100,000 to **support our student's mental health in Boone County Schools.**

Beginning with the 2025-26 school year, every middle and high school will have the **Hope Squad** peer to peer suicide prevention program in their school, with **Ethan's Purpose** making the commitment to ***continue funding the program through at least the 2028-29 school year.***
