Welcome to Tina Badurina

Meet Tina Badurina, the newest member of our team, named Director of Operations and Marketing for The Reiki Center in early February.

“All things creative is my true passion. Being involved in life-changing causes is my calling. Empowering a team to reach for the stars provides me with enormous gratification.”

As a seasoned professional with more than 30 years of marketing and communications experience in the not-for-profit arena, Tina is recognized nationally for driving brand growth, maximizing operational excellence, and delivering strong strategic performance. She most recently served as Senior Vice President at YMCA of Central Ohio, where she led the overall creative and strategic marketing direction, internal and external communications initiatives and helped manage the organization’s growth and development pipeline. Additionally, she was a senior consultant for YMCA of the USA, assisting Ys across the country with their strategic planning, brand equity, crisis communication, leadership development, and philanthropic efforts.

Tina is an author, Reiki Master, Certified Intuitive, Empath, and artist. She and her husband Greg share four children, enjoy cuddling with their cats, Vinnie and Leo, love to hike, and celebrate with all things food – especially Italian and Hungarian.

“Being part of The Reiki Center team feels like coming home to family. Some of the most extraordinary experiences of my life’s journey have taken place at TRC. Combining my professional experience with my holistic gifts is simply the best of all worlds.”
