

Crystal Kids

Parents, do you have a child between the ages of 4-12 who has gifts or who is just a little more "aware" than other kids his or her age? Would your child benefit from increased confidence, focus or connection to others? Perhaps you are searching for natural practices to support your wellness goals for your child?

Crystal Kids gives parents the opportunity to create an individualized natural wellness approach, selecting only the services which may be most beneficial for your child. All programs and ser-

VICES are similar to The Reiki Center's comprehensive therapies offered to adults, but especially adapted for our youngest visitors.
