The Beyond Series has been developed with the understanding that, in some way, everyone is intuitive, psychic, empathic or spiritually gifted. Some of our gifts come to us through birth, usually passed down to us generationally through our family lineage. Sometimes we awaken to our gifts as we progress through life. And some of our gifts are quite possibly things we have learned and experienced in previous lifetimes, a part of who we are in the very Essence of our Soul. But always, always, our Psychic & Intuitive abilities can be enhanced and improved upon through personal spiritual growth and development.

The Beyond Series is great for anyone, whether you want to develop your intuition for personal reasons, if you want to share your intuitive gifts with family & friends, and especially if you feel called to use your psychic & intuitive gifts professionally.

On the 1st Monday of each month, the Beyond Teaching Series will help you develop personally in your spiritual growth & in your knowledge of the spirit world and psychic realm.

On the 2nd Monday of each month, the Beyond Divination Series will allow you to practice on real people with hands-on results of your abilities. Taking both Teaching & Divination classes will help you be a well-rounded practitioner
