## **The City of Ithaca Anchor Storefront Recovery Fund Invites Additional Loan Applications**

**(Ithaca, NY – December 14, 2020)**

In August of this year, a new COVID-19 recovery loan fund launched for ‘anchor’ storefronts in the City of Ithaca. The fund has provided low-cost economic development loans of between \$8,000 and \$50,000 to key commercial storefront businesses in the City, including restaurants and retail businesses.

In light of the ongoing pandemic and additional funding, the Ithaca Anchor Storefront Recovery Fund is currently inviting additional loan applications.

Some storefront businesses, because of the unique service that they provide, because of their longevity, because they draw people to the area, or simply because of their large footprint or critical location, carry particular importance to Ithaca’s economic recovery and positive community identity. The Ithaca Anchor Storefront Recovery Fund provides targeted loan assistance to help ensure that the recovery process proceeds successfully for “anchor” storefront businesses in the City of Ithaca, particularly as we enter a challenging post-holiday winter period amidst the ongoing pandemic.

The initiative to establish this fund was facilitated by the City of Ithaca Office of Economic Development in collaboration with local economic development agencies including the Downtown Ithaca Alliance, Tompkins Chamber and Small Business Development Center. Community Foundation of Tompkins County provided consultation to a number of private individuals interested in investing in the fund and they have done so from their own assets. In addition, Community Foundation itself has received a designated gift to be used to invest in the fund as a form of impact investing. Ithaca Neighborhood Housing Services (INHS), a local Community Development Financial Institution (CDFI), administers the fund. A volunteer loan review committee comprised of experienced business owners, financial/lending experts and economic development experts makes loan recommendations to INHS.

Interested businesses can visit the INHS website to download the full program guidelines and information about how to apply.
