

Married for 46 years, and a mother of two grown sons, I am a native of Northeastern Pennsylvania who relocated to Prescott Valley four years ago to escape the inclement weather on the East Coast. My experience includes working in the non-profit sector as a Communications Consultant/Webmaster and serving as the Director of Technical Support and Services for a mental healthcare agency. My spare time was spent running a Website Design business. Since retirement, I enjoy doing crafts, walking my two dogs, and exploring the great State of Arizona with my husband. I also have been volunteering time editing the RWOP website and learning additional ways that my technical expertise can benefit RWOP. It will be my pleasure to serve you as the 4th VP - Communications.
