

# DISCOVER ALASKA

with PONANT

Ponant is unveiling four itineraries and ten departures for 2024. From Vancouver, Seward, and Sitka, the sailings will range from seven-11 nights, making it possible for guests to be acquainted with Alaska's vast beauty with glimpses into the state's history. All itineraries will feature a crew of naturalists specializing in geology, ornithology, glaciology, marine mammals, botany, and ethnology. For even more on-board discovery, travelers can opt for two expeditions in alliance with Smithsonian Journeys.
