

Dear WRVSU Parents, Guardians, and Caregivers:

This document contains information about these topics:

- **List of kids' needs lately**
- **Snow sports safety**
- **Health HUB notes on doctor visits, vaccinations and other**
- **Covid Vaccination sites**
- **Free Covid test links**

With winter in full swing, I wanted to provide a few **notes on the needs** of some students.

These are the items that are often needed by many kids:

- **Water bottles**
- an **extra set of clothing** (we only have a few of some items left after lending them out lately)
- **Shoes**
- **Boots**
- **Snowpants**

Thank you very much for your help with these!

Snow Sport Safety links:

Health HUB:

HHUB a school-based health program, run through the South Royalton Health Center. They will be coming to Newton soon for appointments if you have enrolled your student for this. Please reach out to the South Royalton Health Center or Kerri Rainville, if you would like to schedule any appointments (802-763-7575). They can do well-child visits, and other specific injury/illness-related visits.

Below are a few sites where you can get vaccinated and/or receive free in-home test kits....Stay well!

COVID VACCINATION SITE # 1:

If you are interested in scheduling a covid vaccination for your student, please fill out the covid vaccination consent form (both sides) located at the link below, and return it to the school. We will schedule that through Health HUB and keep you apprised of the dates.

<http://www.healthhubvt.org/>

COVID VACCINATION SITE # 2:

We wanted to let you know of a vaccine opportunity being held at our office in White River Jct, VT. We currently have very low registration, so we thought you might help us get the word out.

Tuesday and Thursday this week (1/11/22 and 1/13/22) and next (1/18/22 and 1/20/22) and Tuesday 1/25/22 we will be offering vaccine clinics. The morning (9:30 to 1:30) is all adult vaccines (Pfizer 12+, Moderna and limited Janssen) AND the afternoon (2-4) we will offer only Pfizer (both 12+ and 5-11 formulations).

It is best to have families register at

<https://www.healthvermont.gov/covid-19/vaccine/getting-covid-19-vaccine> to insure we have enough vaccine. But we will accept walk-ins on a first come, first served basis.

Vermont Department of Health
118 Prospect Street, Ste 300
White River Jct., VT 05001
www.healthvermont.gov

COVID VACCINATION SITE # 3:

<https://www.alicepeckday.org/C19vaccines>

OTHER STATE LINK for vaccinations:

If you wish to vaccinate your children outside of school, you can find an appointment at healthvermont.gov/KidsVaccine or by calling 855-722-7878.

TESTING KITS FOR HOME USE (Please consider signing up for these this as we move towards more in-home testing):

<https://www.healthvermont.gov/covid-19/testing>

OR

<https://www.covidtests.gov/>

We are continuously grateful to Newton and community families as we work together to help slow and contain the spread of this virus.
