

Ms. Denney - Owl's Nest

WEEKLY NEWSLETTER

This week in math we worked together to measure and compare imaginary beans from Jack's beanstalk. We used unifix cubes in groups of 5s and 10s and compared lengths with our teammates. After choosing a book they loved, students wrote a book recommendation and shared it with a classmate. After learning about the history of the Macy's Thanksgiving Day Parade through the story Balloons Over Broadway, we brainstormed ideas for balloon floats we could create. Each student has created their own float by following the steps of the engineering design process!

Week of:

11/21 - 11/22

Learning Focus

Phonics: Syllable division

Reading: Book clubs

Math: Adding on the open number line

Social Studies/Writing: Gratitude

EVENTS

11/23 - 11/25

No School - Fall Break

12/1

Picture Retakes
