

# CHAIN REACTIONS

A WINTER BREAK EVENT

**MONTSHIRE**  
MUSEUM OF  
SCIENCE

**ENGINEERING FUN FOR EVERYONE!**

**FRIDAY, DECEMBER 27, 12-4 PM**

**MONDAY, DECEMBER 30, 12-4 PM**

**Create an oversized, collaborative Chain Reaction Machine at our special Winter Break Event!**

Explore cause and effect through simple materials. Using a variety of blocks, balls, ramps, string, and other materials, work together with family, friends, or other visitors to make a Rube Goldberg-inspired machine that begins and ends with a gentle pull on a string. Then, combine your machine with others to create one massive chain reaction!
