

Ms. Denney - Owl's Nest

WEEKLY NEWSLETTER

Families,
This past week we spent time in math measuring objects using different measurement tools - unifix cubes, ten strips, and craft sticks. In reading we identified words we struggle to write and practiced spelling strategies. We continued our small group book clubs and began giving book talks. In science we began our unit on properties of matter. We made observations of the differences between solids, liquids and gases!

Week of:

11/8 - 11/12

Learning Focus

Reading: Spelling unknown words; Book clubs

Math: Measurement; Adding two-digit numbers

Science/Social Studies: Types and properties of matter; Veterans Day

EVENTS

11/9 - 11/10

Student Led Conferences

11/11 - 11/12

No School
