

# Office Space Available

The NFI Family Center is an outpatient mental health clinic providing comprehensive services to children, adolescents, families and adults. An office within our agency practice is available to rent to a full-time affiliate-independent therapist/health care professional. We offer reasonably priced rent, free access to all NFI hosted conferences, and opportunities for referrals and collaboration with our clinical staff. Work in a friendly, family-systems oriented setting, while also having the autonomy of a private practice.
