

VALLERIE GUILLORY

**Founder
Trinity Without Borders**

As founder of Trinity Without Borders, a Florida non-profit 501©3, Vallerie has come full circle from a life of child prostitution to addiction and through homelessness. She knows the way out. Her belief that homeownership unconditionally solves homelessness, is the founding purpose with the first Trinity program initiated being Homeless to Homeowner in 2006.

Trinity has gone from serving the homeless out of cars and vans to operating a tent city and on to operating hundreds of transitional living units, under the direction of Vallerie.

Presently pursuing a Florida General Contractor's license and a degree in Building and Construction Management at State College of Florida, Vallerie has led Trinity Without Borders onto a path of affordable housing development in Manatee County.
