

Hiring a new pastor? Is your church/search committee well-informed about compensation guidelines? Have you wondered what other comparable churches allow for housing, retirement, paid vacation days, health insurance, continuing education allowance or auto allowance? What is a current/fair? If you need information we can help you with some guidelines to know what to expect.

Compensation figures are based on information provided by the most current issue of 'Compensation Handbook for Church Staff', published by Church Law and Tax. It is a compilation of survey results of thousands of churches around the United States and these figures have proven to be accurate for most of our churches. Additional guidelines for other ministry positions are also available. This is a free service for CB North Central affiliated churches.

For more information, please contact the CB North Central office at 763-205-9330 or email wendyj@cbnorthcentral.org.
