

Sensory Fun!

Halloween Edition!

PUFFY PAINT GHOST & MONSTER

Instructions:

1. Print out recipe and monster and/or ghost page. Print on cardstock or glue to heavy construction paper.
2. Follow recipe instructions.
3. Using fingers (or stick/tool), place mixture on top of image. Dab to make it "puffy".
4. The next step is to "decorate" the picture using glue and medium that offers tactile experiences.
5. Add yarn for the monsters hair, googly eyes, pipe cleaners, and other manipulatives,
6. Allow to dry overnight.

Puffy Paint Recipe

You Will Need:

- ✓ 1 cup white shaving cream
- ✓ $\frac{1}{2}$ cup white liquid glue
- ✓ Small bowl
- ✓ Food Coloring (optional)

Directions:

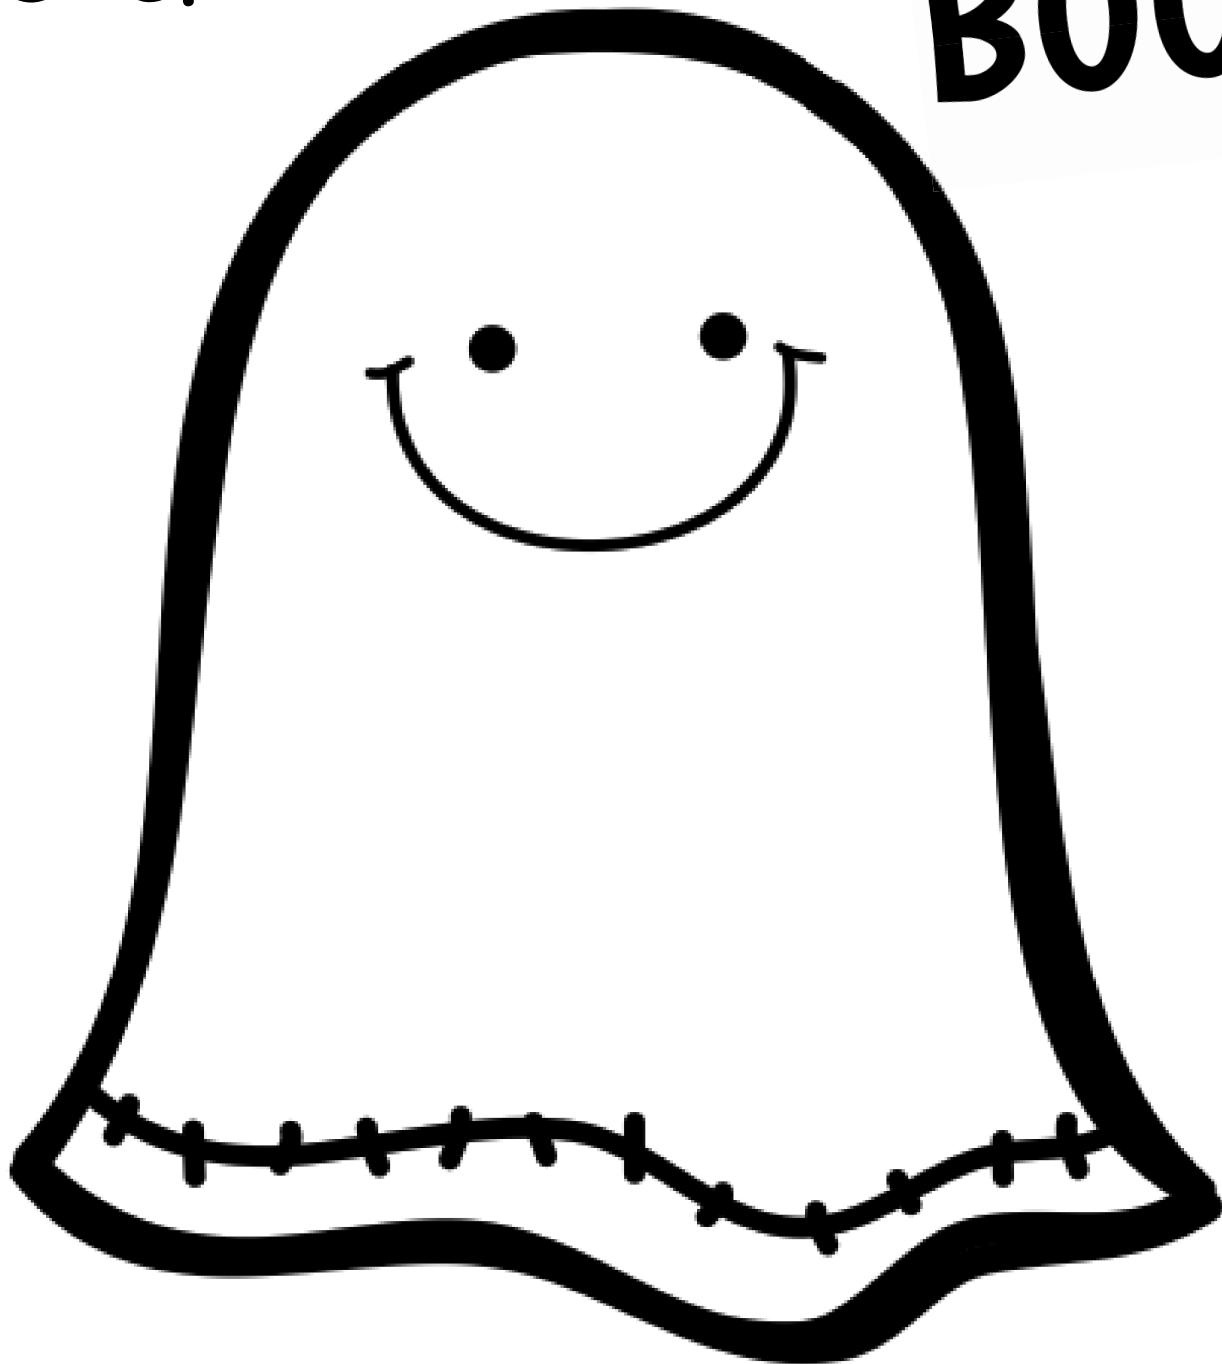

1. Mix the shaving cream and glue together in a bowl.
2. If the mixture appears too "thin", add more glue to make it "stiffer".
3. Once painted, projects will require several hours to dry.

Fun Tips:

- ☺ Some children may initially resist mixing the ingredients with their fingers.
- ☺ Allow them to use a spoon until he or she develops a tolerance.
- ☺ Some children may need to apply the mixture with a paint brush.
- ☺ Gently entice your child to use the mixture as finger paint.
- ☺ When dry the paint will have an elevated or puffy appearance.
