London, ON N6A 4V2

September 13, 2021

## **Changes to Ontario Breast Screening Program Reports October 1, 2021**

Dear Referring Physician:

We would like to inform you that as of October 1<sup>st</sup>, 2021 you will no longer be receiving the paper OBSP Radiologist Report mailed to your office. Instead, you will be receiving a dictated report by the Radiologist for your patient's OBSP result and distributed to your office via our fax servers. This process will be the same as you receive all other reports from our program.

For normal results, your patient will continue to receive the letter from OBSP.

For abnormal results, you will receive the report as outline above and the Appointment Notification fax with appointment dates for the additional appointments. Please ensure your patient is aware of these additional appointment dates.

If you have any additional questions about this change, please do not hesitate to connect with me.

Sincerely,

Heather Medaglia

Coordinator, Breast Care Program
