2024 Fall SEER Workshop

Advanced Topics
for Registry Professionals
September 24-26, 2024, Virtual

Registration for the Live Virtual SEER Workshop is done separately through the NCRA website. (Meeting registration details will be provided separately in **July**.) If you encounter issues with the meeting registration, contact Nancy Allen at NAllen@ncra-usa.org.

Workshop Participants

Carolyn Callaghan will be presenting the results of participant coding of the neoadjuvant data items for breast, rectal, and esophagus cases. In addition, she will be presenting the results of the site and histology coding exercises.

Please complete workshop exercises by **August 15th** for your results to be included in the deidentified analysis which will be presented during the workshop.

If you have questions about accessing the exercises or printing the CE listing, please use the Contact Us link in SEER*Educate.

Workshop Exercises available in SEER*Educate

Program Title	Program #	CE Hours Awarded	Category A Hours
SEER*Educate - 2024 SEER Workshop Neoadjuvant Breast Cases	2024-118	1.5	1.5
SEER*Educate - 2024 SEER Workshop Neoadjuvant Esophagus	2024-119	1.5	1.5
SEER*Educate - 2024 SEER Workshop Neoadjuvant Rectum Cases	2024-120	1.5	1.5
SEER*Educate - 2024 SEER Workshop Site and Histology Cases	2024-121	3	3

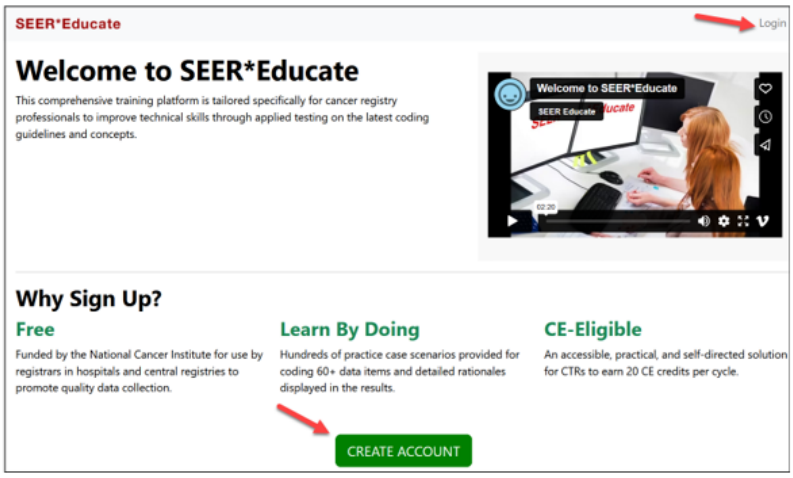

Note: Additional CEs will be awarded by NCRA for attending the Workshop.

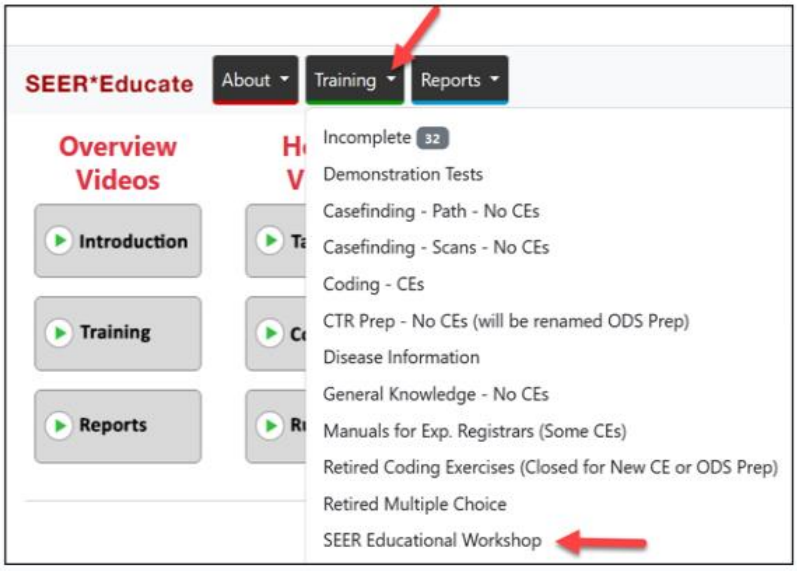

How to Access SEER Workshop Cases in SEER*Educate

Completing these exercises before the SEER Workshop enables the workshop presenter to address problem areas identified by you, the workshop participants. These cases were selected because they challenge the coding guidelines as much as they challenge us, the registrars charged with assigning codes for these data items. The participant responses to these exercises inform the standard setters of issues with the coding guidelines.

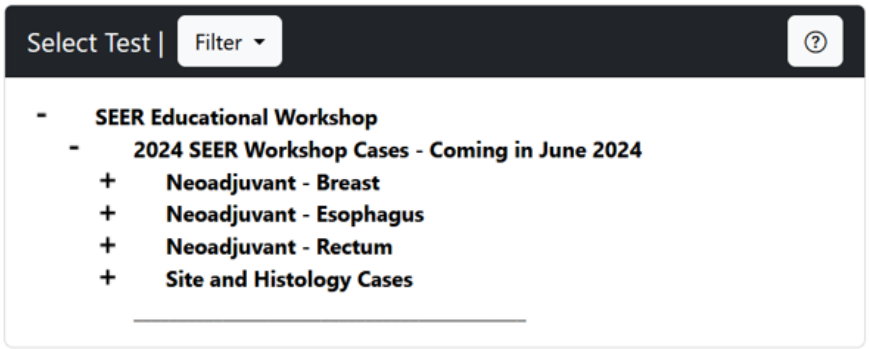

To access the SEER*Educate training go to https://educate.fredhutch.org/. If you don't already have a SEER*Educate account, click the "Create Account" on the home page to create one. For those who already have an active account, Login.

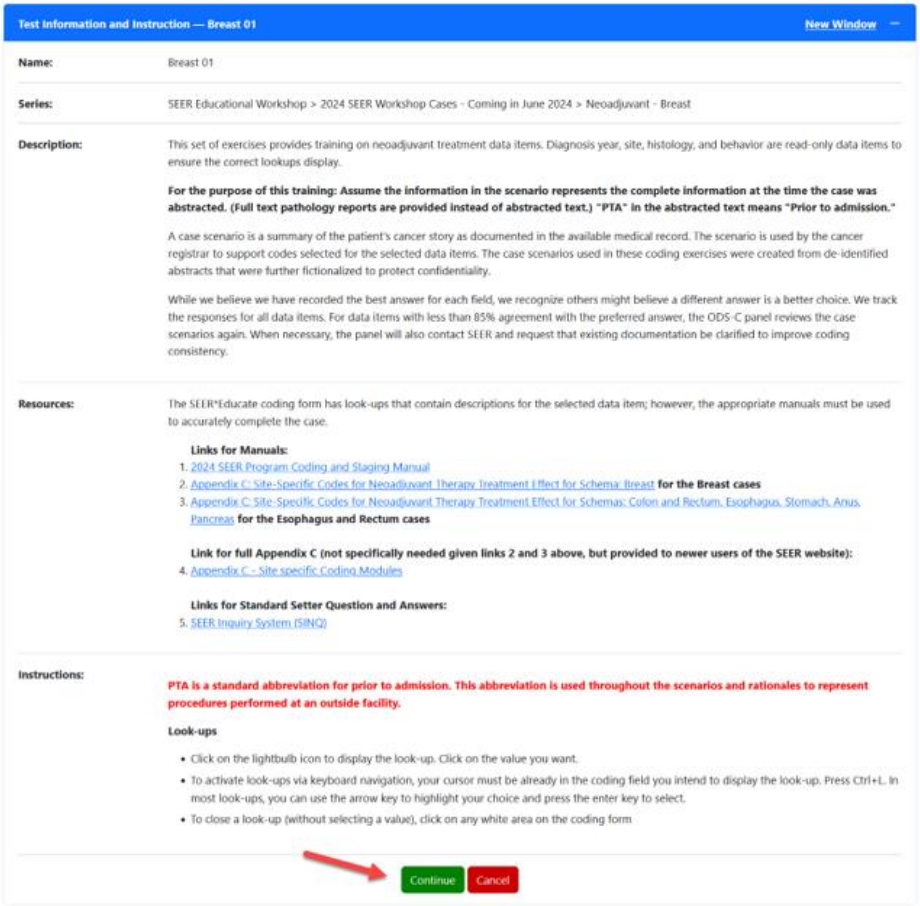

To access the Workshop Exercises, **click** on ***Training Menu*** and then ***SEER Educational Workshop***.

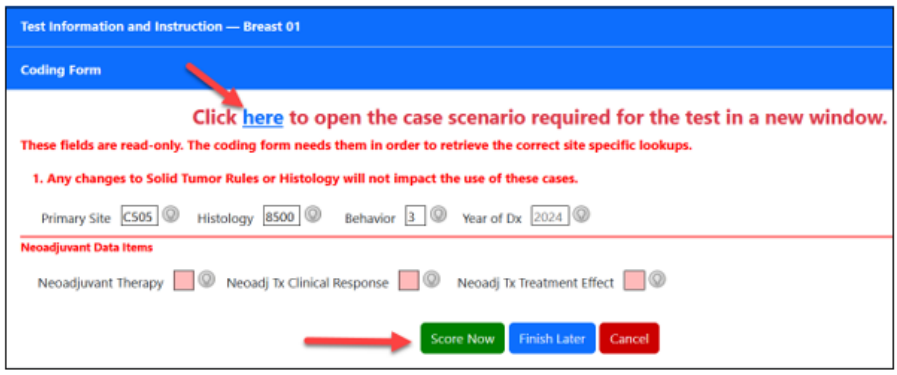

For the neoadjuvant breast, rectum, and esophagus cases, we will all be **coding three fields** (i.e., Neoadjuvant Therapy, Neoadjuvant Therapy--Clinical Response, and Neoadjuvant Therapy--Treatment Effect). For the site and histology cases, we will be coding Primary Site, Histology and Behavior.

After reading the Test Information and Instruction page, press the **Continue** button at the bottom of the webpage.

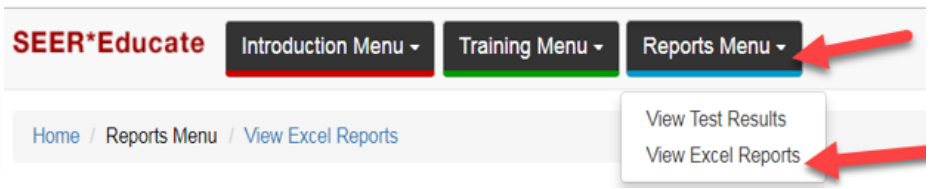

Each case has a link for opening the case scenario which is indicated by the "**Click here**" designation on the page. After reviewing the case scenario, code the data items using the appropriate coding guidelines (links are provided in SEER*Educate on the Test Information page, the first page of each case). After coding the required three data items, press **Score Now** for the results.

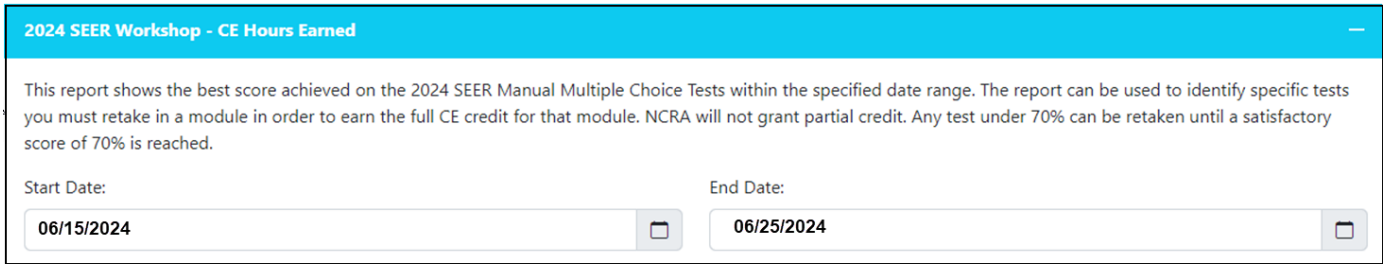

Treat these exercises as regular work. Many participants will need to retake one or more cases to achieve 70% to be eligible for the CEs, but we are most interested in your initial responses that reflect how you would code these cases in your regular workflow. This is how we identify 1) coding inconsistencies that result in identifying training materials needed to improve our performance ***and*** 2) the coding guidelines requiring clarification prior to the release of future versions of the manuals.

To **print a report** demonstrating completion of the CEs, click on Reports Menu and then View Excel Reports.

Expand the **CE Reports – Current Years** section. Click on the **2024 SEER Workshop – CE Hours Earned** report. Change the start date to a date prior to when you began this material, such as 6/15/2024 and change the end date to today's date. If you scored less than 70% on a case, you must retake the case. You need to score 70% on each case to earn the CEs. No partial credit is awarded by NCRA.

We recommend waiting at least two days before retaking an exercise so that you know you are testing your knowledge of what you learned following your first attempt versus your immediate short-term recall of reading the rationale.

Log in or sign up at **SEER*Educate** today by visiting https://educate.fredhutch.org/ and **Learn by Doing**!

If you have questions about accessing the exercises or printing the CE listing, please Contact Us.
