

Data Quality Reminders

Winnie Roshala, BA, CTR

Director, Data Quality Control and Reporting Facility Compliance Officer

Acknowledgement to Taina Valone, RHIA, CTR, for identifying these data quality issues.

Reminder: The following Hematopoietic Diseases below became reportable in 1/1/2001. If a case with any of the diagnoses below is encountered at your facility, but originally diagnosed prior to 1/1/2001, the case is not reportable. We have been seeing a few of these entities being reported recently. These cases are identified and deleted in the Eureka database.

Historic Volume I, Section II.1.8 Newly Reportable Hematopoietic Diseases (NRHD)

For 1/1/2001 to 1/1/2010

Newly Reportable Hematopoietic Diseases (NRHD) are defined as any of the myeloproliferative or myelodysplastic diseases that changed behavior from /1 borderline to /3 malignant in ICD-O-3.

Abstract and report only NRHD cases diagnosed 1/1/2001 forward.

If disease is known prior to 2001, do not report the case. NRHD cases diagnosed prior to 1/1/2001 undergoing active treatment at your facility are not reportable cases.

Newly Reportable Hematopoietic Diseases include the following:

CHRONIC MYELOPROLIFERATIVE DISEASES

Polycythemia vera	9950/3
Chronic myeloproliferative disease	9960/3
Myelosclerosis with myeloid metaplasia	9961/3
Essential thrombocythemia	9962/3
Chronic neutrophilic leukemia	9963/3
Hypereosinophilic syndrome	9964/3

MYELOYDYSPLASTIC SYNDROMES

Refractory anemia	9980/3
Refractory anemia with sideroblasts	9982/3
Refractory anemia with excess blasts	9983/3
Refractory anemia with excess blasts in Transformation	9984/3
Refractory cytopenia with multilineage Dysplasia	9985/3
Myelodysplastic syndrome with 5q-syndrome	9986/3
Therapy-related myelodysplastic syndrome	9987/3

OTHER NEW DIAGNOSES

Langerhans cell histiocytosis, disseminated	9754/3
Acute biphenotypic leukemia	9805/3
Precursor lymphoblastic leukemia	9837/3
Aggressive NK cell leukemia	9948/3
Chronic neutrophilic leukemia	9963/3
Hypereosinophilic syndrome	9964/3
Leukemias with cytogenetic abnormalities	
Dendritic cell sarcoma	
Other new terms in the lymphomas and leukemias	

Reminder: Do not use histology code 8050 for papillary carcinoma of the thyroid. Please use the CRGC Papillary Coding Guideline, found on the CRGC web site at the following link:

<https://crgc-cancer.org/wp-content/uploads/2014/01/Papillary-Carcinoma-Coding-Guideline-12-14-15.pdf>

Reminder: No software vendor has been approved to distribute 2018 software. The CCR Timeliness requirement has been suspended through 6/30/2019. It will be reassessed at that time. See CCR Data Alert 2018-02.

Any cases first seen at your facility in 2018, but diagnosed prior to 1/1/2019, is still subject to the current Timeliness standard requirements. See CCR Data Alert 2018-07.

Although the software delay impacts the entire data collection process, please consider using this time to conduct your own data quality activities. Thank you all for your patience and look for updates as they become available.
