

Dear Parents & Students,

According to the 2017 Youth Risk Behavior Surveillance System, some startling facts regarding student safety were analyzed in the 12 months preceding the survey from Texas students in grades 9-12. We hope that this data sheds a light on the **importance** of being vigilant in reporting safety concerns.

As a reminder, our district participates in the **StayALERT School Safety Program**. This program offers students and parents alike a place to voice their concerns anonymously if they so choose.
