\$22 IN '22

An update on our year-long \$22 in '22 RPAC fundraising campaign.

GRANT HIGHLIGHT: PLACEMAKING

NAR's Placemaking Grant is a great way to make an lasting impact on your community.

Placemaking Grants are used to transform "eyesore" sights or unused spaces into accessible destinations for the entire community to enjoy. This can include the creation of pocket parks, trails and pedestrian paths, dog parks, community gardens, playgrounds and fitness areas.

If you are interested in doing a Placemaking Grant, please reach out to Alexis! She can assist you with how to write a successful grant application and coming up with ideas for it.

If you have an example of a grant that you used this year, please send it to Alexis, we would love to share it!

GAD HIGHLIGHT: GNIAR'S JOE WSZOLEK

Joe Wszolek has had a busy summer so far - GNIAR has had 3 RPAC fundraisers so far, with 2 more to go!

To begin, GNIAR's RPAC Committee teamed up with their YPN Committee to bring in a new generation of investors at an RPAC event. The Cornhole tournament was designed in collaboration with the YPN committee to introduce new REALTORS® to each other while also introducing them to RPAC.

GNIAR's second event was a candlelight bowling night! With good food, drinks, and a great competition, it was a wonderful night.

GNIAR is currently hosting a virtual RPAC Pet Contest. Modeled after NAR's pet contest, members paid to submit pictures of their pets, and members paid to vote on whose pet was the cutest.

Keep your eye out, because Joe isn't done yet... he has two more events in the making!

Check out the trophies from the Candlelight Bowling!
