

	CRYA Meeting 2/17/26 *Attendance listed at end of notes Zoom Meeting from 7:04 to 8:09 PM	
Topic	Discussion	
Treasurer's Report	• Savings: \$2084.65 • Checking: \$18739.65 ○ Total: \$38468.30 • 5 daughters of nep invoices going out this week • All clubs paid, except one club that is figuring out their future (nothing to do with CRYA) • 2 advertisers paid • Insurance due soon which will be close to \$8300-	
Vice President's Report	No report today	
Adopt a Dock Program Doug and Katie	• State Parks often have an Adopt a Park Program so what about an Adopt a Dock Program? ○ Most State Parks Staff checking on the docks don't fully understand what a dock is supposed to look like/needs. ○ So by getting clubs involved they could help with this. ○ NEEDS: Set parameters for how to develop this and set parameters on what clubs can/can't fix or do and how to report. ○ Group agreed that they like this idea • Asked Ken Tennefoss to start collaborating with State Parks on developing this. • NOTS has been doing this for years, JJ Collins was provided as an example • Discussion: Brad mentioned having fixed small dock related items on the spot, but recalls being told not to do this, Asked if this is ok- group agreed that this probably isn't preferred but also understand the safety risk of not fixing some of these	
Hadley's Landing Repair- Match Grant and Fundraising Katie	• State Parks reached out to Marine Board to ask about applying for a small grant specifically to fix Hadley Landing- this grant cannot exceed \$50K and requires a grant match of 25%. They can move forward with this fix now. ○ State Park has quote to fix the dock for around \$25K- this includes haul out of old dock, fix dock that goes to shore with an alumni dock. • Parks agreed to apply and match 12.5% of the 25% match funds. The ask of CRYA is to cover the other 12.5% (\$3125.	

	• Katie and Doug support this ask and see it as a “big win” because the original ask was for CRYA to cover the full \$25K and this ask (getting docks fixed) fits the mission/purpose of CRYA. Also of note, State Parks originally wanted to close this area permanently. • Discussion: ○ Alicia-Daughter of Neptune (DON) have “slush” funds from raffles and would like to offer the use of these funds go towards this grant match. Asked that their donations be recognized as part of the contributions towards this match grant. Alicia isn’t sure of the dollar amount at this time but will email Katie this information. ○ Sean- provided history of CRYA supporting this type of activity. Provided examples of Gilbert River, Martian Slough and Westport. Supporting the boating infrastructure that we use is one of the purposes of CRYA. ○ Once it’s repaired, clubs need use it and make it be known it’s being use, please do this through scheduled cruises and impromptu cruises because the State still does not see this as a need. Jolene stated this would be a great article share with Nautical NW magazine ○ NOTS is hosting a cruise to Hadley’s on 3/14/26- Come join! To RSVP email: kathryn.schenk@gmail.com (please take pictures) • VOTED IN ○ Ken Tennefos motion to approve CRYA contributing \$3125 towards grant with OR Parks and Rec for marine board, this to include the DON funds ○ Ken Tennefos might be able to get some PR around this as well. ○ PYC news letter – this is the sort of thing to promote in local club news letters.
Opening Day “Spring Into Boating”	• For Opening Day, CRYC Paddlefish will be docked at the Vancouver Waterfront with the DON and any special guests (Chamber of Commerce, etc.) aboard. ○ The details around this are being be finalized. The dock to this is accessible by land so clubs could be there. This is an attempt to get to the City of Vancouver Council Members and medial out there. ○ Sean Kearns has some connections with City of Van people. Jolene has a press release for this to send out • Doug- needs to set up meeting with Fleet Captains • And ask to Clubs will go out to help CRYA fundraise
Opening Day Volunteer Aks	• Doug- asked for volunteers • Will need help with Opening Day Flyer ○ Karen had someone that can work on flyer Pro bono

	• Doug to connect with Vancouver Media Person for local Vancouver paper to gather pictures from last year and to make sure Opening Day is a well published event. ○ PYC has some good pictures on-line as well ○ CRYA will put out a call on social media for people to send in pictures from last year. ○ Would be great to get some pictures of Vancouver Waterfront
Daughters of Neptune (DON) Alicia	• Excited to have a focus for DON fundraising; these funds will go towards the match grant for Hadley's Landing (see above).
Doug	• Desire for CRYA to help fundraise -asking clubs to help with this as well. • Discussion about swag- need to brainstorm some useful items. ○ Question what is the intent of this? Doug provided example of Jeanie- with the Marine Board-wants to do a presentation on what they do/don't do and their funding streams. General Public get upset with Marine Board because they aren't fixing docks, but this isn't their role. So would be nice to have something to give out during this meeting to keep CRYA known ○ Suggestion for clubs to work on membership and spread the word and CRYA stay focused on what we do • Jolene- working with Nautical NW magazine- to get a a blurb of who we are and push out Opening Day info. Jolene shared fresh water news info with him • Look at individual membership as well. Goal to get one article in each edition
Cruise Guide Jolene	• Cruise Guides are now out! ○ Jolene is coordinating the delivery of these guides to local clubs ○ Up to 50 guides can be mailed for smaller clubs- just email Jolen to let her know this is what you'd like to do jcoats@freshwaternews.com Nautical NW magazine- Jolene working with this person and will send him opening day info, a blurb of who we are, J shared fresh water news info with him
Old Business	Clearance Marker on the lower section of the Steal bridge. When checked in on this last the contact stated "it's on the list" but wasn't able to provide an actual timeline for this.
New Business	
Good of the Order	Dock talk at PCYC is about lithium systems March 22
