

CRITICAL INCIDENT RESPONSE WEBINAR

BPA Health will be offering a free webinar for providers in the BPA Health EAP Network on appropriate interventions when conducting a critical incident response. Participation in this webinar will meet new BPA Health requirements for those providers wishing to obtain these referrals after April 1, 2021.

Learning Objectives:

Upon completion of the webinar, participants will be able to:

- Define a critical incident (CI)
- Understand goals, values, guidelines and process of a CI response
- Define types of interventions covered by EAP services
- Identify appropriate interventions during a CI response
- Identify stress management topics and skills appropriate to CI

Trainers:

LaDessa Foster, LCPC, MAC, NCC – LaDessa has over 30 years of behavioral health experience serving people with co-occurring mental health and substance use disorders. LaDessa is currently the Clinical Services Manager at BPA Health.

Lianna Erickson-Trembath, LCPC, ACADC – Lianna has specialized in mental health and addictions therapy for the last 12 years. Lianna joined BPA Health in 2018 where she is currently a Clinical Case Manager.

Registration:

Space is limited so we encourage you to register today!
