

# White Christmas Children's Moment

Hello boys and girls! Today I want to tell you about a very special ministry called Embrace Florida Kids. It's a place where children who aren't able to live with their families can find a safe, loving home with people who really care about them and want the very best for them.

Since we're getting close to Christmas, I want to talk a little bit about Christmas trees and some of the things that we use to decorate them. Christmas trees have ornaments, and most trees have a star or an angel at the top, right? But there's something else that's really important for a Christmas tree – the lights!

Sometimes the lights are the very best part of the tree. Have you ever sat in a dark room and looked at a Christmas tree that's full of lights? It probably made you feel really good inside and made you feel safe and cozy.

That's how Jesus makes us feel, too. He tells us that He is the light of the world, and that whoever follows Him will never live in darkness. And just like Jesus does, Embrace Florida Kids provides a lot of light and happiness for boys and girls who really need it.

Today, our church has the chance to be the light just like Jesus. By helping Embrace Florida Kids, we can help the boys and girls they serve feel really safe and loved and cozy inside, just like we do when we look at Christmas tree lights. I can't think of a better Christmas gift, can you?

Be the
