

# HOLD THE DATES

## 20 and 21 October 2025

## Australian IDDSI EXPO and IDDSI Academy Pilot

The Australian IDDSI Reference Group is delighted to showcase Australia's first IDDSI Expo together with IDDSI Global's Academy Pilot course for two, one day events. The events will be held in Brisbane at Victoria Park Function Centre, 4km from Brisbane's City centre. Join us for either, or both days!

### **Australian IDDSI Expo Monday 20 October 2025**

Day One will provide the much-awaited Australian IDDSI Expo. The Expo is in full steam preparation and will address key issues faced by the industry today. Themed 'Babies, Boomers and Beyond: IDDSI Global implementation and Australian Local Impact' will feature a packed one-day program providing IDDSI implementation tips, IDDSI innovation for food and drinks, training initiatives for cooks, chefs and nutrition champions and an understanding of what it is to live with eating, drinking and swallowing difficulties.

This one-day Expo will also bring industry supporters together with attendees in a unique format for optimum engagement. The Expo will focus on IDDSI adoption within the healthcare, aged care, disability, community, and health hospitality sectors.

Full program and registration prices will be available by the end of April.

### **IDDSI Academy Pilot, IDDSI Global Tuesday 21 October 2025**

Day Two offers IDDSI Global's Academy Pilot course. This multidisciplinary event offers practical learning combined with theory. It brings together the worlds of food science, oral physiology across the age spectrum, culinary expertise, application of IDDSI to foods and drinks and IDDSI testing. Group work and problem solving is a key feature of the program.

The IDDSI Academy Pilot is being held in three locations in 2025 – Italy (Feb), UK (Sept), Australia (Oct).

**Please register your expression of interest for the events using the QR code and read the IDDSI e-bites for more information!**
