CALDWELL COUNTY FACTS & STATISTICS

Early History

The Yadkin River begins in Blowing Rock on the northern edge of Caldwell County. This major Piedmont North Carolina River served as a pathway to western expansion during the colonial period. Its fertile valley attracted influential planters, including General William Lenoir, a Revolutionary hero. The town of Lenoir, which is the county seat for Caldwell County, is named for this man and his family.

Modern Caldwell County has its roots in the fusion of the cultures of German settlers moving westward from the Piedmont, and the Scotch-Irish Appalachian people who inhabited the county’s mountainous northern half. The abundant hardwood resources of Appalachian forest were the catalysts that combined the business and organizational skills of the Germans with the craftsmanship and strong work ethic of the mountaineers. A thriving furniture manufacturing industry emerged and was the backbone of the Caldwell County economy for generations.

The second major thread in the county’s economy was supplied by the textile industry. In the late 1800s, “king cotton” still ruled southern agriculture. Caldwell County entrepreneurs were quick to recognize the potential, and a number of mills sprang up along the railroad corridor. Huffman Finishing Company, located near Granite Falls, in the southern end of the county currently operates a state-of-the-art sock-weaving plant, one of the most efficient in the country.

Location & Topography

Caldwell County is framed on the south by the Catawba River and Interstate 40 which parallels the river’s course through the region. The southern part of the county consists of rolling countryside dissected by numerous streams. The Blue Ridge Parkway to the north which passes through a corner of the county on Grandfather Mountain. US Highway 321 threads its way from the river to the mountains, intersecting the Parkway a few miles north of the county line. The northern portions of the county rise to 5,964 feet above sea level at Calloway Peak. The Pisgah National Forest occupies a large segment of the western region, combining with contiguous forests further west.

Caldwell County is preparing to take advantage of opportunities to improve the areas for its citizens and visitors.

Caldwell County is very fortunate to have a higher-than-average percentage of our acreage in public land. Most of this land is in Pisgah National Forest that covers nearly 49,000 acres in Caldwell County. One of the true jewels of the forest is the Wilson Creek Gorge formed by the Lost Cove, Harper’s & Wilson Creek watershed. This area was added to the National Wild and Scenic River system in 2000. Wilson Creek is used for swimming, picnicking, tubing, horseback riding, kayaking, as well as hunting, fishing, camping, hiking and more.

The Wilson Creek Visitors Center provides a place for information, meeting spaces, picnic areas, or just a place to sit on the front porch and enjoy the day. Nearby, the Brown Mountain Off-Highway Vehicle Area offers 34 miles of rugged, mountainous trails open to trail bikes with some sections open to ATVs, Jeeps and other four-wheel drive vehicles. This is the only area in the national park dedicated to off road vehicles.

If you like to fish, then trout fishing in the Wilson Creek area is some of the best in the world. Striper and crappie are caught in Lake Hickory, Lake Rhodhiss and Gunpowder Creek. Perch, small mouth bass and catfish in numerous rivers and streams challenge your fishing skills.

If you prefer hunting, Caldwell County is a haven for outdoorsmen. Wild game like whitetail deer, black bear, turkey, raccoon, rabbit, duck and other small game are hunted in the area. The NC Wildlife Commission has acquired some 5,000 acres of land in the Buffalo Cove area that can be used for hunting and fishing.
