

For over 50 years **thesecondopinion** has been providing free, comprehensive second opinions to adults in California diagnosed with cancer.

We rely on the expertise of over 60 volunteer cancer specialists to provide our service and give cancer patients a better understanding of their cancer diagnosis and treatment plan, so they can make informed medical decisions.

Are you a physician looking for an opportunity to use your knowledge and experience? Help cancer patients by volunteering with *thesecondopinion*.

Our multidisciplinary second opinion panels are conducted via Zoom telemedicine once a week and consist of a medical oncologist, radiation oncologist, pathologist, radiologist, surgeon, the cancer patient and family members. Medical malpractice insurance is provided.

For more information please contact **thesecondopinion** at: mail@thesecondopinion.org or call 415-775-9956
