

Influencer

THE NEW SCIENCE OF LEADERSHIP

When facing persistent, resistant challenges, leaders often surrender to poor results or invest in change efforts that waste time and resources. And yet it's possible to influence behavior with surprisingly predictable success. For the past thirty years, we've studied leaders with a proven ability to influence rapid, profound and sustainable change. And here's what we know: human behavior is grounded in six sources of influence. Effective leaders know how to leverage and apply these sources to influence real results.

WHAT IS INFLUENCER?

Influencer goes beyond corporate perks and charismatic personalities to teach a method for changing ingrained human behavior. Leaders learn how to achieve better results by changing human habits that are extraordinarily difficult to alter—especially those that mire down teams and organizations. Drawing on the skills of the world's best change agents and five decades of social-science research, Influencer teaches why people do what they do and how to help them act differently.

The virtual experience of Influencer incorporates group discussion, video case-studies, personal reflection, and engaging exercises into a fast-paced learning experience that enables participants to develop an influence plan.

Course Details
