Oral Health Effects of Tobacco Use and Opioid Awareness

DID YOU KNOW?

- Dental providers are often the first to notice health problems in relation to tobacco use
- Patients who smoke are nearly twice as likely to need root canal treatment
- Tobacco use decreases the effectiveness of treatment for gum disease

Join us on **Saturday, June 5, 2021**, from 9am-12pm at the Lake County Health Department where Dr. Larry Williams DDS will present on the Oral Health Effects of Tobacco Use and Opioid Awareness.

Other topics covered include tobacco use and COVID-19, e-cigarettes and vaping, and local cessation resources.

Free Continuing Education credits pending
