

# THE LANGELL LISTENING TOUR

Dear NEOMED faculty, staff and students,

As my family and I join Northeast Ohio, we look forward to meeting all of you, getting to know our neighbors and becoming an integral part of the community in which, we will live, learn and work.

Upon joining Northeast Ohio Medical University on October 1, I plan to begin an intensive listening tour with all of the people who make up the NEOMED community. My intent is to learn your thoughts and provide you a venue to share your opinions about NEOMED's current and future needs and opportunities.

My listening tour will begin with you — NEOMED's faculty, staff and students — on my very first day. While shaping and growing the future of NEOMED will be a journey, my hope is to learn what you believe makes NEOMED an outstanding institution and what is most important to you in shaping NEOMED's future. I look forward to rolling up my sleeves and joining you in working to ensure we remain a patient-centered and world-class health sciences university while building a more vibrant and sustainable future.

Please review the following meeting dates and plan to attend as I hope to learn so much from you all.

Sincerely,  
John Langell
