

A beautiful story showing the impact [Reaching Beyond Globally](#) is having in Kiryabicooli, Uganda, beyond education. Grace became pregnant during COVID, and she and her family feared her future had dimmed. Through the guidance of Madrine, the support of Grace's sponsor, the strength of her family and Grace's commitment to her education, she has overcome a huge hurdle. She and her family are raising her beautiful 2+ year old son, Trevor, together. Grace just completed secondary school with very high marks and is heading to nursing school. Her father, Charles, was one of the cooks for us while we visited the village, absolutely adores his grandson and is over the moon proud of Grace.
