This quote from Levi Meyer's, Director of the ORC, presentation:

Prior to the class beginning, I had an idea of what the next several months would look like. I envisioned this class being similar to other trainings or books about how to be a successful leader, but I was wrong. Leadership Franklin County isn't about giving the participants fancy letters at the end of your name for your email signature or resume. This experience isn't about another framed certificate to hang on the wall of your office.

Leadership Franklin County is about providing members of this community the opportunity to develop themselves, for the betterment of those we serve. Leadership Franklin County is a facilitator of bringing members of this community together through shared experiences and professional development. This class provides hands-on experience and insight from those in the trenches daily into what makes our community unique and proud.

Leadership Franklin County creates conversation about the challenges facing our community and aims to equip those in this group to help. This experience is an investment into the future of Franklin County, through the individuals that sit before me.
