Wyoming Department of Health

COVID-19 Response | COVID-19 Immunization Data Brief
February 12th 2021

COVID-19 Vaccination Campaign

Current Vaccination Phase:

- PHASE 1b – all counties
- County-level phase status information can be found HERE
- A comprehensive description of phases and priority groups can be found HERE

- Since December 12th, the Wyoming Department of Health (WDH) and its partners have been distributing and administering COVID-19 vaccines as part of the continued response to the COVID-19 pandemic.
- Vaccines are being shipped to counties weekly, based on available vaccine and campaign planning efforts.
- Updates to the WDH Phase 1 designations were released on February 11. Vaccine supply remains low, therefore, individuals named in Phase 1 may still experience delays between now and the time they are able to receive the vaccine.

**Received and administered doses exclude Wind River Indian Reservation, Military, and VA,.*

1st DOSES RECEIVED*
77,975
2nd DOSES RECEIVED*
39,700

1st DOSES ADMINISTERED*
67,031
2nd DOSES ADMINISTERED*
25,572

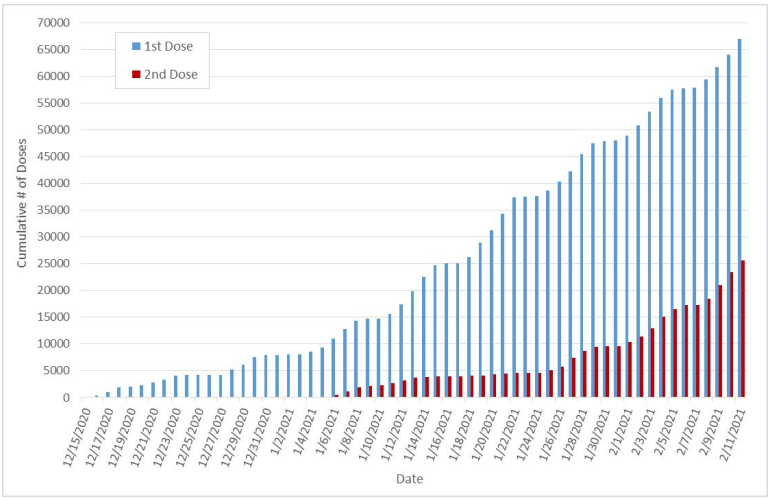
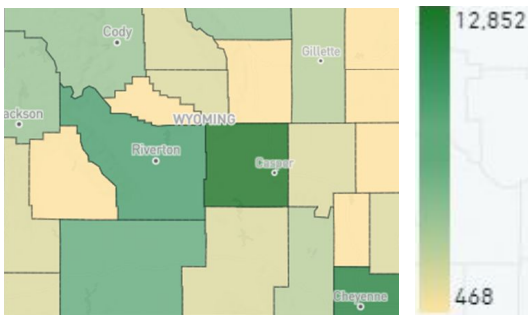
COVID-19 Vaccination Campaign Data

Cumulative Number of Doses Administered in Wyoming, Dec 15th 2020 – Feb 11th 2021



Cumulative Number of Doses Administered by County



Key Points & Resources

- Vaccine supply is currently limited.
- Getting vaccinated is free. If you have insurance, your insurance can be billed for administration fees. No fees will be billed to you. If you do not have insurance, you will be able to get the vaccine and no fees will be billed to you. Vaccines are free and insurance is not required. Some people may be asked to show Medicare or insurance cards so professionals giving shots can get reimbursed.
- The CDC began the Federal Retail Pharmacy Program late the week of February 8 with 1,800 doses of Moderna being shipped to Wyoming Walmart locations. These shipments are from federal allocations and will be included in future Data Briefs. The following Walmart locations received 100-200 doses of Moderna: Casper (East 2nd location), Cheyenne (2 locations), Cody, Evanston, Gillette, Laramie, Rawlins, Riverton, Rock Springs, and Sheridan. CDC will increase amounts of vaccine, add other Walmart locations, and add other pharmacy chain partners as vaccine availability increases.
