PRECIOUS METALS

Selecting the right design options for a bathroom means ensuring that individual nuances are perfectly coordinated. Flush actuator plates in new, fashionable metal colors are the perfect match for the latest finish trends, while plates made of glass, concrete-look solid surface materials, natural slate, or wood tones blend harmoniously into almost any décor.

The ideal combination for your dream bathroom is just waiting for you to discover it.

NEW

RED GOLD

With its intense copper tone, red gold exudes a high-quality sense of warmth in bathrooms and makes a strong statement when combined with luxury surfaces in light or dark shades.

GEBERIT SIGMA21

The red gold accent rings for small and large flush volumes emphasize the refined look of the base material used for the flush plate.

finish options.

BLACK CHROME

The subtle elegance of black chrome is the perfect complement to the dark colors and sharp contrasts between dark and light featured in today's bathroom trends.

GEBERIT SIGMA21

Whether they use a contrasting or tone-in-tone effect, the delicate, black chrome accents around the buttons add a distinct graphical element to the actuator plate.

CHROME

This classic choice of metal for the bathroom reveals a completely new side when glossy and matte brushed elements are paired with on-trend plate materials.

GEBERIT SIGMA21

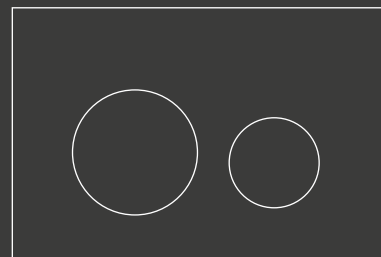

Set in a concrete look for a loft effect or in a natural walnut surface, chrome accents make a real statement. Sigma21 plates with chrome borders are also available in other colors and with other surfaces.

BLACK ON BLACK

Black has always been beautiful – and this fashionable interior design color is now popular in the bathroom too. Geberit's unadulterated interpretation features a stimulating interplay of glossy and matte elements.

■ GEBERIT

WHITE ON WHITE

Refined matte and glossy surfaces reveal a different side to this classic choice for bathrooms. Design rings and stripes maintain a tone-in-tone look and create subtle accents.

GEBERIT SIGMA20

Set on a glossy or matte surface, contrasting accents give basic black and white a new lease on life. The matte-coated areas feature surfaces that are easy to clean.

DESIGN FREEDOM

Sigma Series flush plates. Geberit ensures supreme convenience and durability – all from behind the wall. The only visible element of the system is the stylish flush plate. Our Sigma Series offers the widest range of options available, so you can choose the plate that best suits your personal preference and your bathroom's design. Any time you feel like a change, switching plates takes only a few seconds: simply lift off the old plate and drop the new plate in its place.

Geberit systems let you design the perfect bathroom for your needs...now and in the future

UNLIMITED CREATIVITY

Your bathroom, your design. Create a bathroom like no other and a design that's entirely yours. Make your bathroom your own with an entirely individual selection of product materials or motifs. You can personalise the surface selections for the Geberit Sigma21, Sigma50, and Sigma70 flush plates. The flush plate blends seamlessly with the wall or creates a bold statement. Your creativity is never limited.

→ INDIVIDUAL

GEBERIT SIGMA21 CUSTOMIZABLE

GEBERIT SIGMA21 FLUSH PLATE

Make it yours. The frameless design of the base plate can be outfitted with a nearly endless number of materials.

In addition to polished chrome, the accent rings on the flush buttons are now available in red gold, black chrome, and brass. See pages 6-23 for information on these new finishes.

GEBERIT SIGMA50 CUSTOMIZABLE

GEBERIT SIGMA50 FLUSH PLATE

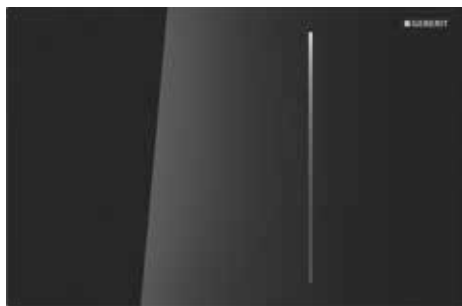

Make your bathroom unique. Turn the surface you love or your favorite motif into an actuator plate with all the advantages of Sigma50.

In addition to polished chrome, the flush buttons are now available in red gold, black chrome, and brass. See pages 6-23 for information on these new finishes.

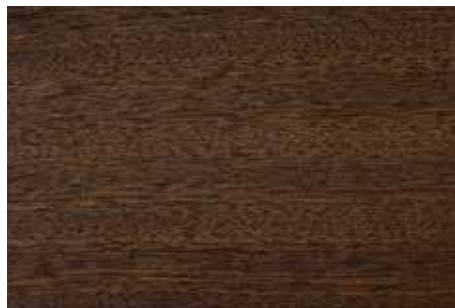

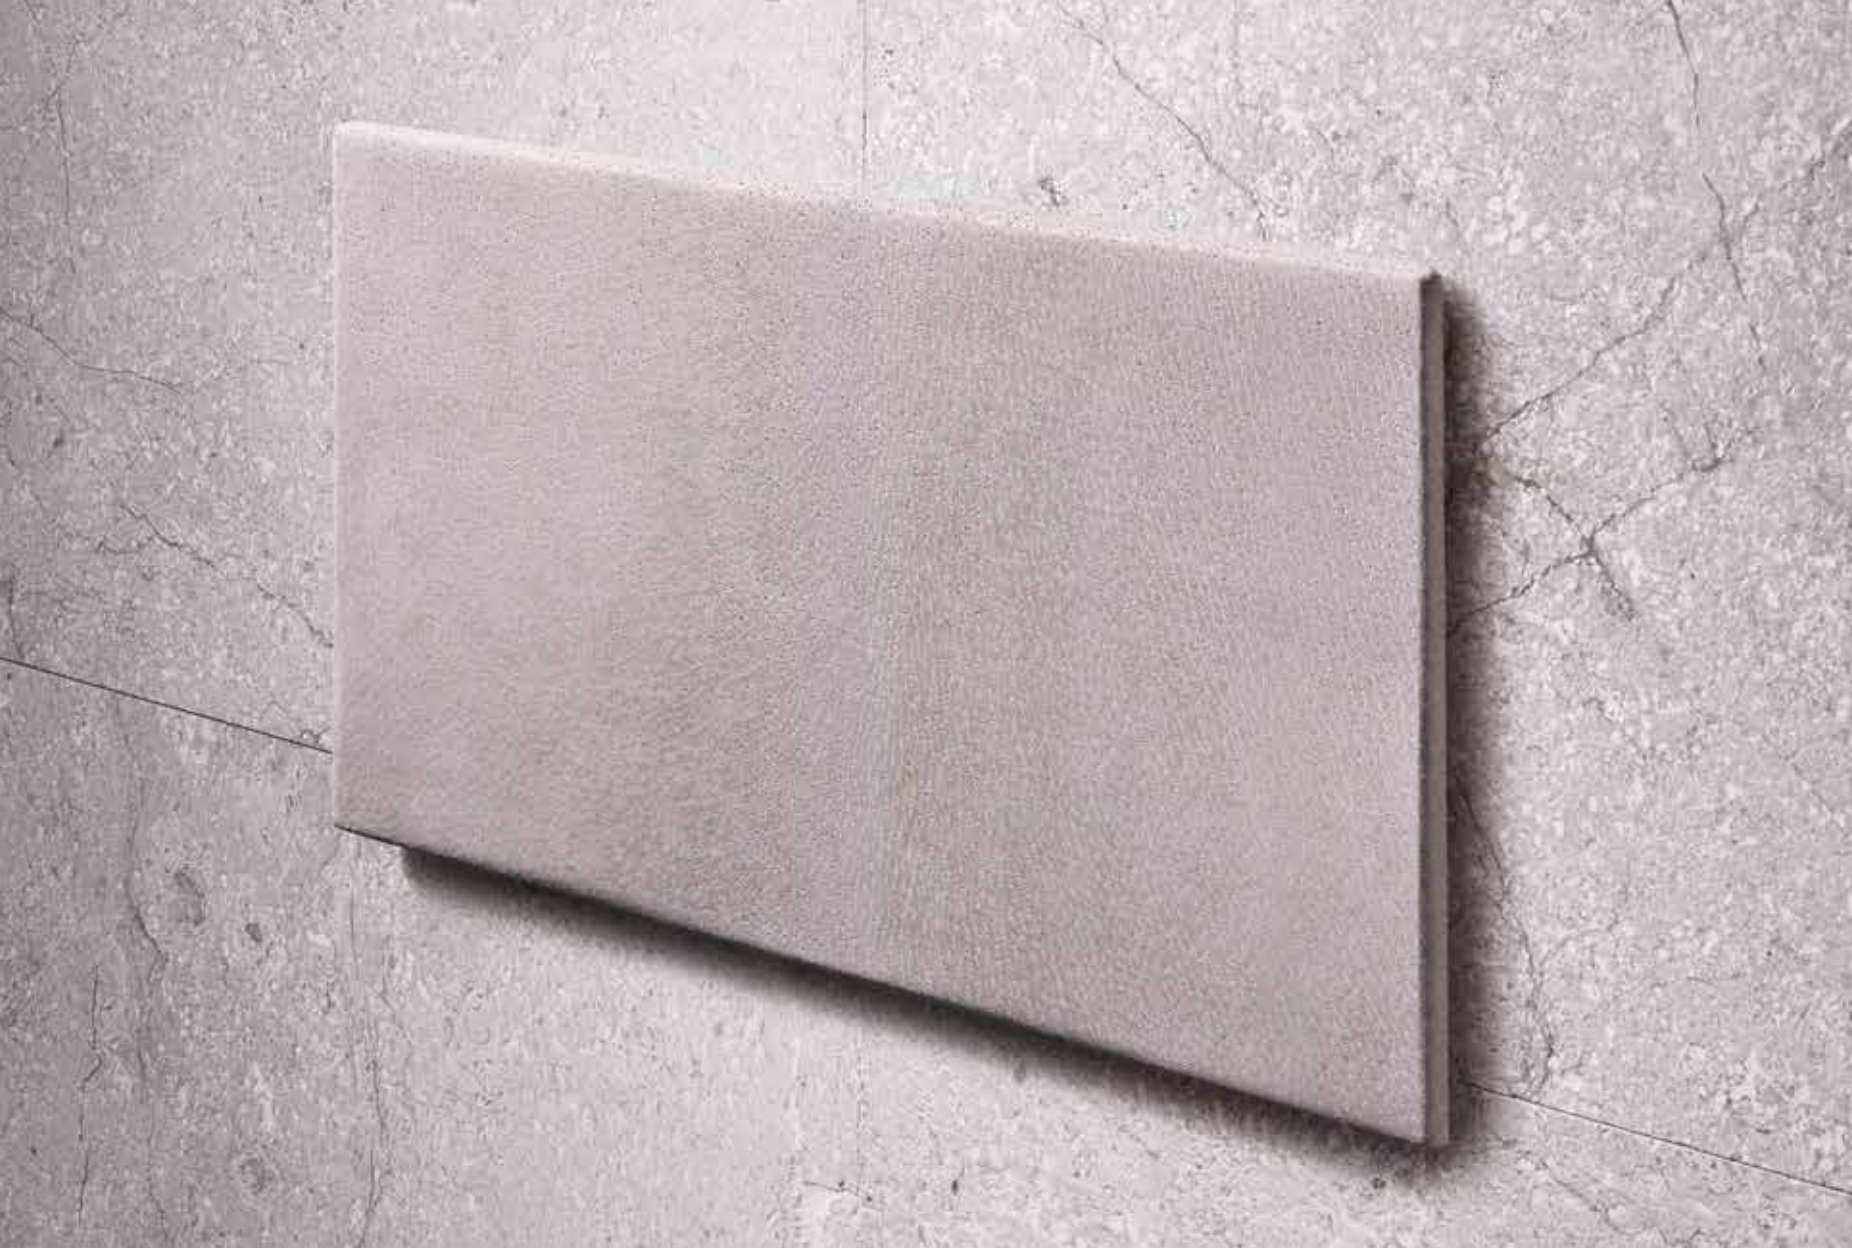

GEBERIT SIGMA70 CUSTOMIZABLE

GEBERIT SIGMA70 FLUSH PLATE

Play with materials and designs. With a completely smooth surface, Sigma70 opens up entirely new possibilities for custom plates.

TOUCHLESS FUNCTION

NO-TOUCH FLUSH

→ TOUCHLESS

You're looking for hygiene and freshness without compromise. We offer you flush plates to meet your needs – touchlessly. Wave your hand or simply walk away. Better hygiene should always be this easy.

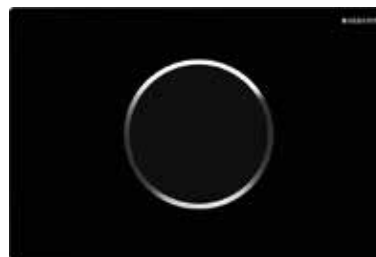

Touchless flush plates for
toilets and urinals are available
in matched designs.

GEBERIT SIGMA10 TOUCHLESS

PERFECTLY POSITIONED

Omega Series flush plates. Geberit Omega is our short-height in-wall toilet system that gives you maximum design flexibility. Need to position the toilet under a window? Or maybe you'd like to build a pre-wall for handy storage and display. Geberit Omega is the perfect choice. Best of all, the matching Omega Series flush plates can be positioned for top- or front-flush, whichever you prefer.

GEBERIT OMEGA20

- Five color options
- Impressively small dimensions
- Water-saving dual flush
- Round buttons with contrasting rings
- For front or top actuation
- Matching urinal actuator available
- Matte chrome plate available with easy-to-clean surface coating
- Matching version for Sigma systems available, see page 36

GEBERIT REMOTE FLUSH ENHANCED ACCESSIBILITY

The optimal solution. In special construction situations, using a remote flush can be the optimal solution. Perhaps the bathroom layout calls for flush actuation at a different location to increase accessibility. Or maybe the user preference is for a flush control that's as small and elegant as possible. In cases like these Geberit offers a variety of remote flush options with pneumatic force transmission. All can be placed anywhere within a 5.5 ft. radius of the concealed tank.

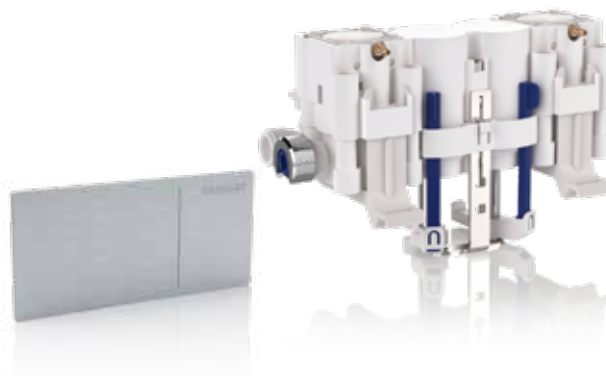

TOUCHED A THOUSAND TIMES

The pneumatics of the Geberit remote flush Type 01 and Type 10 have been tested for years of stress. The technology is based on air pressure, not electrical current.

A TOUCH MORE REFINED

Thanks to the hydraulic servo lifter, just a gentle touch is all it takes to flush the Geberit Type 70. No electrical current is required.

VANISHING ACT

Available in a variety of colors and materials, Geberit cover plates for service openings are designed to blend in. A tile-bearing version is available for a seamless look.

GEBERIT REMOTE FLUSH TYPE 01

- Three color options
- Available in single flush or water-saving dual flush
- Can be placed anywhere within a 5.5 ft. radius of the tank
- For furniture as well as solid and drywall construction
- Pneumatic remote flush
- Cover plates available in complementary finishes*
- Compatible with Sigma and Omega systems
- Accessible (ADA) version available

GEBERIT CONCEALED TANKS

THE BEST PART IS WHAT YOU DON'T SEE

Reliable and safe. In the best bathrooms around the world, flush technology is hidden behind the wall – a solution that's more hygienic, quieter, and offers unbeatable stability. Geberit in-wall systems make it all possible.

Used in combination with the matching in-wall tank, Geberit Sigma flush plates cover a wide variety of design styles and user preferences. The Geberit Omega system with matching plates offers great flexibility, especially in pre-wall installations. Both flushing systems offer tool-free maintenance and guaranteed spare parts availability for 25 years.

Only Geberit offers the widest selection of both flush plates and reliable systems for installation of sanitary equipment behind the wall. And now that we've divided our plates and systems into two families with easy-to-remember names – Sigma and Omega – it's easier than ever to match the right flush plate with your preferred installation system.

- 1 The decorative actuator flush panel grants easy access to internal components. Resolve maintenance issues quickly and make simple change-outs with no tools. Choose front actuation (Sigma), front/top actuation (Omega), or remote flush.
- 2 Engineered for long life, the fill and flush valves utilize water-saving, dual-flush technology.
- 3 Tank integrity is guaranteed. The one-piece, integrated, gravity flush tank is individually leak tested for reliability and reinforced to prevent collapse. Plus, the insulation prevents condensation inside the wall.
- 4 Toilet bolts simply and securely to the Geberit mounting frame. Holds up to 880 lbs, exceeding ASME A112.6.2 strength requirements. WaterSense®-labeled combinations are available: see geberit.us for details.
- 5 You set the height. Adjustable-height carrier allows in-wall/pre-wall positioning of toilet seat height from 15" to 19". Accommodates either 2×4 or 2×6 stud construction.
