Tiger Lily Dress Shop

We toured the Tiger Lily Dress Shop with owner, Ellen Dayan. Ellen creates custom clothing designs by using a special computer program (basically CAD for the body) that allows her to ensure accuracy and save time and money as part of the design process.

Ophthalmic Biomaterials Lab

We toured Dr. Morgan Fedorchak's lab as part of University of Pittsburgh's Department of Ophthalmology. Students were able to meet her team, participate in a hands-on demo, and learn about their research in changing the way vision-threatening ocular diseases are treated.

SENIOR MOCK INTERVIEWS

We are so excited to report that this is the first year ALL NC seniors participated in this annual event! Several local companies and NC alumni and parents participated and even offered students the opportunity for actual jobs!
