

## Virtual Test Prep for North Catholic Students

Everything has changed as we know it and we've ALL had to make adjustments!

As you know, North Catholic has partnered with 3RPrep ([www.3rprep.com](http://www.3rprep.com)) for the past several years: They teach our in-house SAT/ACT Prep Course, they offer valuable advice and workshops during our Prep for the Future nights (spring and fall), and they have been offering our students FREE scored practice SAT/ACT tests.

**Now they want to offer our families something NEW!**

### **3RPrep Virtual Test Prep, \$150**

For the cost of a normal text book, you will have access to their software learning platform that will last all 4 years of high school! This is great for students who may have not been able to fit the NC class into their schedule or simply want to work on their own time/pace! 3RPrep's scoring software coupled with content allow customized instruction on the topic being taught and can hone in on a student's weakness and areas they need to concentrate on. The online class includes weekly LIVE STREAMS via YouTube on 830Prep (and recorded for future use) and 2 in person tutoring sessions either live in studio or online.

*Family Discount of \$25 (if two or more students in same family sign up)*
