Background & Purpose

Risk factors for suicide, attitudes toward mental illness, and practice-related stressors among US veterinarians

Randall J. Nett, MD, MPH; Tracy K. Witte, PhD; Stacy M. Holzbauer, DVM, MPH;
Brigid L. Elchos, DVM; Enzo R. Campagnolo, DVM, MPH; Karl J. Musgrave, DVM, MPH;
Kris K. Carter, DVM, MVP; Katie M. Kurkjian, DVM, MPH; Cole F. Vanicek, DVM;
Daniel R. O'Leary, DVM; Kerry R. Pride, DVM, MPH; Renee H. Funk, DVM, MPH&TM, MBA

Objective—To evaluate the prevalence of suicide risk factors, attitudes toward mental illness, and practice-related stressors among US veterinarians.

Design—Cross-sectional survey.

Recent publications suggest that veterinarians have a high level of mental distress and elevated suicide rate

Animal Health

Background & Purpose

- High levels of student debt combined with modest incomes have created serious enough concerns that AVMA conducted a major symposium on solutions
- Numerous reports of compassion fatigue and burnout exist in the profession

BRAKKE CONSULTING, INC.

MERCK
Animal Health

Questions

- Is there a mental health crisis in the profession?
- If so, what is contributing to it?
- What can be done about it?

BRAKKE CONSULTING, INC.

MERCK
Animal Health

Goals

Definitively quantify the prevalence of mental illness and stress in the veterinary profession

Compare to previous studies and general US population

BRASSE CONSULTING, INC.

Research Team

Ulrich Schimmack, PhD, University of Toronto

- Psychologist and wellbeing expert

Elizabeth Strand, PhD, LCSW, University of Tennessee CVM

- Licensed clinical social worker working in a veterinary setting

Linda Lord, DVM, PhD, Merck Animal Health (MAH)

Colin Siren, Kynetec Market Research

John Volk, Brakke Consulting

Methodology

- ❖ AVMA:
 - 20,000 randomly selected email addresses
 - Email letter alerting sample to upcoming study
- ❖ Email invitation + 2 reminders
- ❖ Incentive: Drawing for 20 \$100 gift cards; contribution to AVMF
- ❖ Survey open Nov 2-16, 2017
- ❖ Average survey length 18.1 minutes.
- ❖ 3,540 usable, completed responses (17.7%)
- ❖ Data weighted based on age, gender and region of the US
- ❖ Margin of error +/- 1.62% at 95% confidence level

Two Key Measures

1. Serious psychological distress

- i.e., Mental Health
- Measured by standardized “Kessler 6” questions

BRASSE CONSULTING, INC.

MERCK
Animal Health

Two Key Measures

2. Wellbeing

- Wellbeing examines the way individuals think and feel about their lives compared to the best/worst possible lives they can imagine.
- Measured and indexed using standardized questions
 - *How satisfied are you with your life as a whole these days?*
 - *Suppose that the top of the ladder below represents the best possible life for you and the bottom of the ladder represents the worst possible life for you. Where are you on the ladder?*
 - *Please indicate your agreement with the following statement: “In most ways, my life is close to my ideal.”*

Wellbeing Varies Significantly by Age

Student Debt Impacts Wellbeing, Regardless of Amount

Conclusions

Veterinary Medicine is not in a state of crisis. About 1 in 20 veterinarians are suffering serious psychological distress, consistent with what is found in the general population.

There's a mental health treatment gap in veterinary medicine. While many veterinarians with serious psychological distress are getting treatment, a significant population is not. Few employers offer Employee Assistance Programs.

Recommendations

Veterinary Organizations

- ➡ Evaluate, improve and more effectively publicize existing organizational wellness resources
- ➡ Continue to seek ways to reduce student debt and improve financial conditions in the profession, especially for young veterinarians.
- ➡ Educate constituents about signs, symptoms and rates of mental illness among veterinarians

BRASSE CONSULTING, INC.

MERCK
Animal Health

Recommendations

Employers

- Educate employees on the existence of mental health issues and provide time off for appointments with physicians and counselors
- Outwardly discuss and set healthy practice expectations for work/life balance
- Create mentoring programs for new employees to help them gain the skills and confidence need to perform satisfactorily in their career
- Consider partnering with in-practice veterinary social work professionals

BRAKKE CONSULTING, INC.

MERCK
Animal Health

Recommendations

You

- ▶ With the help of a mental health professional or coach develop a stress management plan
- ▶ Retain a certified financial planner to develop a plan to manage finances and student debt
- ▶ Budget time for healthy activities such as family time, socializing with friends, recreation and exercise. Limit time on social media.
