Prioritizing PPE

Launch Into Safety

It’s time to spotlight the life-saving power of Personal Protective Equipment (PPE)

Statistics

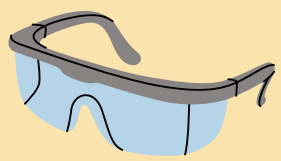

Falls are the leading cause of construction fatalities, accounting for **34%.**

Proper PPE use can **REDUCE** the risk of head injuries by **50%**, eye injuries by **60%**, and hand injuries by **70%.**

Essential Equipment

Hard hats, gloves, and all necessary safety gear prevent injuries.

A Call To Safety

Let's prioritize using PPE on every job site.
