### Applying the Bible to Life

- What things in your life tend to distract you from looking forward to your future hope?
- Is it possible to be forward looking, in hope, while also living in a way that's useful and productive today? How can the reality of what awaits you fuel your growth and fruitfulness today?
- Can you think of any songs of praise and worship that help us sing about our hope? It'd be good to sing them while sheltering-in-place.
