

# This Old Porch

## NEWS ON HOLDEN VILLAGE'S PORCH PROJECT!

SPRING 2023

The Holden Village Porch Project continues into its third year! This important historic renovation project ensures that all Villagers can enjoy gathering on Holden's 80-year-old porches for generations ahead.

All material is carefully cut, hauled, and milled from the woods surrounding Holden Village before becoming a beloved piece of a porch, stair, or railing. **Volunteers are needed** to help with milling lumber and construction, especially during the summer. Join in this unique opportunity to learn new skills in carpentry or share your experience!

**Holden Village is fortunate to have Noah Turner serve as Porch Project Lead for a second year!** Noah spent a year at Holden as Co-Head Carpenter from 2016-2017 and led the Porch Project in Summer 2022. He is familiar with the historic porches and the importance of restoring them for the future. Noah's expertise in architecture and historical restoration will allow Holden's porches to provide community gatherings spaces for years to come!

### HOW TO SUPPORT

**VOLUNTEER:** Contact Holden Staffing: [staffing@holdenvillage.org](mailto:staffing@holdenvillage.org) to let us know of your availability and interest.

**DONATE:** Make a gift online through our website [www.holdenvillage.org/donate](http://www.holdenvillage.org/donate)
