

As a cradle Episcopalian, I was raised in a solid environment, infused with the spirit of the Lord and just pure faith. Although, my mother was raised in the Baptist faith, she converted to Episcopalian and was determined to raise her children as such.

I have a B.S. Degree in Computer Information Systems.

I joined St. John's in 2005. From that day forward, I hit the ground running, head first into an active church congregational life. I have and continue to participate in a number of ministries. I have served on the Vestry for at least three terms, from 2007 to the present. I served as Sr. Warden under Rev. Matt Sedona; currently I serve as a Verger; Eucharist Reader and on the Media Team as a Zoom Host.

Currently, I proudly serve as President of our Daughter's Of The King church chapter. I participate in our Pastoral Care Ministry. I am a facilitator for Sacred Ground, as well as, a member of our Racial & Social Justice Team.
