District Service Committee

The purpose of this committee is to educate and promote service projects to clubs, divisions and the District based upon the needs of the individual communities. The governor determines the direction and scope of this committee using the District's Strategic Plan as a guide.

NEBRASKA-IOWA DISTRICT

Sonia Almodovar
Service Committee Chair

My name is Sonia Almodovar and I am excited to be the new chair of the District Service Committee. I live in Crete, Nebraska, and I am a member of the Milford, Seward and Helping Hands Kiwanis clubs. I received my Bachelor of Science in mathematics from Doane University and my Master of Science in psychology from Grand Canyon University. I am currently the training and recruitment director for Southeast Nebraska CASA and the assistant cheer and dance coach at Doane University.

For the past several years the District Service Committee has focused on youth hunger. This coming year, the focus will be on the systemic issues surrounding mental health and the children we serve. We will be focusing on bringing awareness of mental health and we will also be implementing new projects to break the silence, end the stigma behind mental health and being kind to our minds. We are calling it the Kindness Crew Project.

Since this is the first year, I would love to learn about any ideas your club have or have already been implementing. I am looking for three to four passionate people to be on this committee. Please fill out this form, if you are interested: https://forms.gle/wq1B4harFx22gdSbA
