

# Fish stocking help needed

## Wednesday, October 27, 2021

The Arizona Game and Fish Department's Native Trout and Chub program is stocking 250-Gila Trout in Frye Creek, and 500-Gila Trout into lower Marijilda Creek on Mount Graham, Wednesday, October 27, 2021.

The stocking of Lower Marijilda Creek will be the most physically demanding, requiring a ~4-mile hike one-way to the stream, carrying a 5 gallon bucket half-full of water and fish (~40 lbs) up Mount Graham.

The stocking of Frye Creek will be significantly easier, requiring a ~2-mile hike one way to get to the section of stream that we will stock, while carrying the same amount of weight. Both Streams will require a vehicle with high clearance and four wheel drive to reach the trailheads.

We are looking for volunteers to help us complete both of these stockings.

If you would like to help out with one of these stockings, please email Zach Beard [zbeard@azgfd.gov](mailto:zbeard@azgfd.gov) by October 15th with which stocking you would like to help with. Spots will be filled on a first come, first serve basis and space is limited. You will be required to follow all Arizona Department of Game and Fish and CDC protocols related to COVID.

If you have any questions, please contact Zach Beard [zbeard@azgfd.gov](mailto:zbeard@azgfd.gov).
