

inspira HEALTH | COVID - 19 UPDATE

Dear Inspira neighbors,

Inspira Health requests your help. As with most of the health care industry right now, our supply of N95 surgical masks is low.

These masks are vital for the delivery of patient care at all of our facilities. Wearing these masks protects our clinical staff and our patients.

With the increased demand, due to COVID-19, we are pursuing every possible source for these masks in addition to our usual suppliers.

We know many industries outside of health care in our region use these masks, and we are turning to our community to ask for assistance.

If you have any N95 masks to donate to Inspira, please drop them off to the Guest Services desk in the main lobby of Inspira Health Center Woodbury, 509 N. Broad Street, between the hours of 8 a.m. to 9 p.m. If a pick-up is needed, please contact Nick Dalsey at 856-371-5830 or dalseyni@ihn.org.
