

# VIRTUAL ACADEMY

Saddleback Valley Unified School District

## Flexibility and Personalization

The content is organized to allow for students to learn anytime, at their own pace while teachers utilize the tools of technology to provide specific support to meet the unique students' needs. This flexibility allows students to pursue other interests and activities.

## Blended Learning

While curriculum is organized virtually to maximize personalization and flexibility, students are afforded unique opportunities to work with their teachers and peers in face to face environment to maximize student learning and engagement.

## High Standards of SVUSD

All teachers are highly-qualified, credentialed, SVUSD teachers. There is no tuition to enroll.

## Support for Parents

Parent involvement is a key component to the success of our students. We provide many ways for you to be involved in your child's education and offer support necessary for you to serve as an effective learning coach.

## Engaging and Student Centered Curriculum

Using the tools of technology, teachers integrate the curriculum to create authentic learning experiences to strengthen students' academic and social-emotional intelligences.

*The world of work and citizenship is rapidly evolving. Utilizing a variety of curriculum and instructional strategies, our teachers and staff work with parents to support students to thrive in a world that requires creativity, innovative thinking, and an ability to communicate in person and virtually.*

## General Info

- Grades K—8
- Space is limited
- Flexible online education
- To be located at Melinda Heights School
- (949) 580-3457
