# KEEP YOUR COMMUNITY CONNECTED

Act now to take advantage of the  
Emergency Broadband Benefit Program

## Cox is keeping students, families and communities connected through the Emergency Broadband Benefit Program.

You may know someone who qualifies for temporary financial assistance.

Through the government-funded Emergency Broadband Benefit Program, eligible households can receive discounted internet service. Certain households may qualify to receive up to \$50 off their monthly bill based on their current internet service and equipment rental, or up to \$75 if they live in a tribal area for as long as government funds remain available. Through the program and our partnership with PCs for People, households are also eligible to receive a one-time discount of \$100 towards a laptop or desktop computer.

As the Emergency Broadband Benefit Program is open for just a limited time to all Americans – not just Cox customers – it's important to apply as soon as possible. Please visit [cox.com/ebb](https://cox.com/ebb) for a full list of Emergency Broadband Benefit Program assistance qualifications.

Cox is committed to narrowing the digital divide and is proud to participate in the Emergency Broadband Benefit Program to ensure our communities stay connected.
