**What's Doing this Summer for D97 Kids?**

Tracy Dell'Angela Barber

This summer, BASE Camp is offering over 55 options across the STEAM spectrum for D97 students (STEAM = science, technology, engineering, arts and math!). Even better is the enhanced funding now in place to eliminate the “summer enrichment gap,” with 119 scholarships awarded so far.

Join us to talk with Tracy Barber about how OPEF works year-round to enhance K-8 education in our D97 schools with imaginative, hands-on learning experiences bringing experts into the classroom to inspire and mentor students as they discover abilities and interests they never knew they had.
