

Online Dance Education

Pre-K thru 5th Grade

Making the best of Google Classroom
(and other online platforms)

What's Available that I am using

Canvas: Proprietary and mostly used in Higher Ed (27/7 support)

Microsoft: Businesses, Corporations, Administrations

Facebook: Social, Business, Community & Non-Profit Organizations,

Google: Education Systems, Arts Organizations

Canvas

- **Canvas: An Open, Extensible Learning Ecosystem (Instructure)**
- **The Canvas Learning Management Platform allows schools to build the digital learning environment that meets the unique challenges faced by their institution.**
- **Canvas simplifies teaching, elevates learning, and eliminates the headaches of supporting and growing traditional learning technologies.**
- **Canvas is made up of a powerful set of highly integrated learning products that allow institutions to get all of the functionality they need and none that they don't.**

Microsoft

Microsoft Teams is a unified communication and collaboration platform that combines persistent workplace chat, video meetings, file storage (including collaboration on files), and application integration. The service integrates with the Office 365 subscription office productivity suite and features extensions that can integrate with non-Microsoft products. Microsoft Teams is a competitor to services such as Slack and is the evolution and upgrade path from Microsoft Skype for Business

Facebook

Facebook is an American online social media and social networking service based in Menlo Park, California and a flagship service of the namesake company Facebook, Inc. Since 2006, anyone who claims to be at least 13 years old has been allowed to become a registered user of Facebook, though this may vary depending on local laws.

Google Classroom: The Heart of the Matter

What is it?

Google Classroom is a free web service, developed by Google for schools, that aims to simplify creating, distributing, and grading assignments in a paperless way. The primary purpose of Google Classroom is to streamline the process of sharing files between teachers and students.

Google Classroom: The Heart of the Matter

Google Classroom combines Google Drive for assignment creation and distribution, Google Docs, Sheets, and Slides for writing, Gmail for communication, and Google Calendar for scheduling. Students can be invited to join a class through a private code, or automatically imported from a school domain. Each class creates a separate folder in the respective user's Drive, where the student can submit work to be graded by a teacher. Mobile apps, available for iOS and Android devices, let users take photos and attach to assignments, share files from other apps, and access information offline. Teachers can monitor the progress for each student, and after being graded, teachers can return work along with comments.

Google Classroom: Getting Down to Business

What is different for Arts, Specialists, Clusters, Out of Classroom Teachers, etc.....

What is specific for dance and dance educators?

What I have done so far.....
